

OGHENECHUKO GODSWILL

AI Automation Engineer | n8n Developer | AI Agent & Workflow Automation

Abuja, Nigeria | +234 708 953 3606 | godswillmamus54@gmail.com

Portfolio: <https://godswillai.dev> | GitHub: github.com/godswillmamus54-max | LinkedIn: [linkedin.com/in/ogheneochuko-godswill/](https://www.linkedin.com/in/ogheneochuko-godswill/)

PROFESSIONAL SUMMARY

AI Automation Engineer specializing in n8n workflow automation, AI agents, API integrations, and production automation systems. Experienced in designing end-to-end workflows connecting AI models, APIs, webhooks, cloud infrastructure, databases, and business applications. Hands-on experience building AI-powered systems for job discovery and application assistance, automated content production, workflow orchestration, and operational automation. Skilled with n8n, OpenAI, JavaScript, Python, REST APIs, Docker, AWS EC2, Linux, Git/GitHub, Google Sheets, Gmail, React, and Next.js.

TECHNICAL SKILLS

AI & Automation: n8n • AI Agents • OpenAI API • Prompt Engineering • Workflow Automation • AI Automation • LLM Integration

APIs & Integrations: REST APIs • Webhooks • HTTP Requests • API Authentication • Service Integration • JSON • Structured Data

Programming: JavaScript • Python • TypeScript • Node.js

Cloud & DevOps: AWS EC2 • Docker • Docker Compose • Ubuntu/Linux • Nginx • Cloudflare • HTTPS • Git • GitHub

Web Development: React • Next.js • HTML • CSS • Responsive Web Development

Data & Storage: Google Sheets • PostgreSQL • MySQL • SQLite • Structured JSON Data

SELECTED PROJECTS

AI Job Application Assistant — n8n • OpenAI • JavaScript • Arbeitnow API • Google Sheets • Gmail

- Integrated Arbeitnow API for job discovery; built JavaScript normalization, filtering, skill matching, and relevance scoring.
- Implemented AI job analysis, conditional routing, tailored cover letters and ATS-optimized resumes.
- Integrated Google Sheets for tracking and Gmail for notifications.

AI Content Factory — n8n • OpenAI • Docker • APIs • Google Sheets • AI Media Generation

- Built an AI-powered content production and distribution platform using n8n and OpenAI.
- Connected content creation, processing, distribution, APIs, HTTP services, and structured data pipelines.

Production n8n Automation Infrastructure — AWS EC2 • Docker • Docker Compose • Nginx • Cloudflare • Ubuntu/Linux

- Deployed n8n on AWS EC2 with Docker/Docker Compose; configured Nginx, HTTPS, Cloudflare, Linux environments, backups, and Git/GitHub.

Daily AI Briefing Assistant — n8n • AI Agents • APIs • Google Sheets • HTTP

- Built scheduled AI reporting with external APIs, structured JSON, conditional logic, Google Sheets storage, and automated HTTP delivery.

Personal Portfolio Website — React • Next.js • TypeScript

- Built and deployed a responsive technical portfolio showcasing automation, AI, DevOps, and software projects at <https://godswillai.dev>.

Online Banking Demo — React / Web Development

- Built a responsive demonstration banking interface and frontend components for common banking workflows.

PROJECT / PRACTICAL EXPERIENCE

AI Automation & DevOps Projects | 2026 – Present

- Design AI-powered automation with n8n/OpenAI; build multi-stage workflows using agents, APIs, webhooks and JavaScript.
- Deploy automation infrastructure with Docker, AWS EC2, Ubuntu/Linux, Nginx and Cloudflare.
- Develop REST/HTTP integrations and apply testing, debugging, error handling and data validation.

Freelance Computer Support Technician | Degreat Computers | 2012 – 2014

- Installed/configured operating systems and business software; diagnosed hardware/software issues and provided technical support.

CERTIFICATIONS

- AI Automation & Workflow Engineering — AITECH Technologies, 2026
- AI Prompt Engineering — AITECH Technologies, 2026

EDUCATION

Emakpor High School — Secondary School Certificate, 2011
