Professional Summary

AI Automation Engineer with hands-on experience designing and deploying production-ready automation systems using n8n, Docker, AWS, Linux, REST APIs, OpenAI, and cloud infrastructure. Passionate about building scalable AI workflows, cloud deployments, and intelligent automation solutions.

Technical Skills

AI & Automation: n8n, AI Agents, Workflow Automation, OpenAI API, Prompt Engineering, REST APIs, Webhooks

Cloud & DevOps: AWS EC2, Docker, Docker Compose, Ubuntu, Nginx, Cloudflare, Git, GitHub

Programming: JavaScript, TypeScript, React, Next.js, Node.js, Python

Databases: PostgreSQL, SQLite, MySQL, Google Sheets

Featured Projects

Production n8n Server

Deployed production-ready n8n on AWS with Docker, Nginx, HTTPS, Cloudflare and automated backups.

AI Content Factory

Built AI-powered content generation and publishing workflows with n8n and OpenAI.

AI Job Application Assistant

Automated resume, cover letter and job application generation.

Personal Portfolio Website

Responsive portfolio showcasing AI automation and DevOps projects.

Online Banking Demo

Modern banking dashboard demonstrating secure UI and responsive design.

Experience

AI Automation & DevOps Projects (2026–Present)

Designed production-ready automation systems, deployed AWS infrastructure, integrated AI APIs, built React applications, and implemented DevOps best practices.

Freelance Computer Support Technician (2012–2014)

Installed operating systems, configured software, diagnosed hardware/software issues, and provided technical support.

Certifications

AI Automation & Workflow Engineering (AITECH Technologies, 2026)

AI Prompt Engineering (AITECH Technologies, 2026)

Education

Emakpor High School — Secondary School Certificate (2011)
